

CONSERVATION AND RESTORATION OF MODERN CERAMIC MOSAICS FROM ELEMENTARY SCHOOL IN OBRENOVAC

Mosaics were devastated in floods in 2014 that shook Serbia, and completely destroyed Obrenovac. This job was part of humanitarian work that Institute for the Protection of Cultural Heritage of Serbia did after the flood. Author of this work of art is well known artist Ljubiša Petrović. These mosaics are symbols of this school and since 1979 (year when it was applied on school walls) gives warmth to entrance hall. Every generation of pupils are photographed, in all the important events in the course of their education, in front of these Mosaics.
