

14th ICCM Conference Plovdiv, October 24-28, 2022

Second Circular and Conference Program

The 14th Conference of the International Committee for the Conservation of Mosaics (ICCM) will be held in Plovdiv, Bulgaria, October 24-28, 2022, at the invitation of Plovdiv Municipality.

The Plovdiv conference aims to bring together conservators, restorers, archaeologists, art historians and other professionals who work in the public or private sector in the broader area of mosaic conservation. The conference especially welcomes students and recent graduates.

The location

Plovdiv, ‘The city of the Seven Hills’ is the second largest city in Bulgaria after Sofia, with a population of 347,000.

It is situated in south-central Bulgaria on the two banks of the Maritsa River. It is also known by the name *Philippopolis*, after Philip II of Macedonia conquered the city in the 4th century BCE. It is considered to be one of the oldest cities in the world with evidence of habitation dating back to the 6th millennium BCE.

Plovdiv's downtown is a lovely mix of modern (late 19th – early 20th century) Bulgarian and Ottoman (15th-19th century) architecture with a lot of archaeological sites dating back to Antiquity and Middle Ages. Numerous archeological monuments can be found along the modern streets and buildings - evidence for the life of Plovdiv's ancient inhabitants. Some of the most emblematic monuments are:

The East Gate, the Ancient Theatre, the Roman Stadium, the Forum and Nebet Tepe.

Two Basilica churches monuments with lavish mosaic floors, which were recently conserved, can be visited in the city: the little Early Christian Basilica and the Episcopal Basilica. Roman mosaics are also preserved in situ at the House of Eirene in the heart of the city.

Plovdiv is the culture capital of Bulgaria and is the host of a great variety of cultural events such as the International Fair Plovdiv and several festivals. It was the European Capital of Culture for 2019.

The venue

The Conference will be held at the House of Culture "Boris Hristov"

The theme

Conserving Mosaics in a Changing Environment: Challenges and Opportunities

Cultural heritage is increasingly exposed to threats related to rapidly changing physical, socio-economic, political and cultural currents around the world. Climate change and related natural disasters, reduced financial resources contributing to neglect and under-funding, rapid urbanization, and geopolitical conflicts are affecting cultural heritage at an alarming rate. Heritage professionals seek new approaches and effective strategies to mitigate the pressure and the negative impact of change at a regional, national and international setting, and to conserve and ensure the protection of important objects, collections and sites.

In its 14th Triennial Conference, ICCM will explore, the conservation of mosaics in a changing world, focusing on both the challenges with which heritage professionals are confronted with, as well as the new opportunities that might arise from these settings.

Papers are invited to address the following thematic areas:

- ❖ *Conservation and management of mosaics in situ*
- ❖ *Mosaics in a new context: museum and storage collections*
- ❖ *Shelters on archaeological sites*

- ❖ *Mosaics in urban environments*
- ❖ *Mosaics in conflict zones*
- ❖ *Modern and communist era mosaics*

In addition, presentations are invited to address the following sub-themes:

- Methods of survey and documentation
- Conservation and management of mosaics
- Presentation and display
- Education and training
- Best practice case studies

Oral Presentations

Oral presentations will be divided in sessions according to the theme and sub-themes of the conference. Each presentation will be limited to **15 minutes**. A 30 minutes discussion will conclude each session.

Poster Session

Poster sessions will take place at the same venue. Poster authors will have the opportunity to present their work to fellow colleagues during the breaks between sessions and at a dedicated time. Please refer to the program.

Selected authors are expected to bring their posters printed in the following dimensions: **DIN A0 841×1189 mm**.

The posters will be made available at the ICCM website soon after the conference. For this purpose, poster authors are kindly requested to bring a high quality PDF file of their posters (no less than 5MB and no more than 30MB).

Printed and digital versions of the posters should be handed to the conference registration desk on arrival.

Video Session

Videos could address aspects of manufacturing, mosaic art and significance, conservation, presentation, education, and preservation best practices.

Participants whose videos have been accepted for presentation will be called to submit a low quality (preview) version of their video by **August 30th 2022**. Maximum video length is maximum 5 minutes. Further guidelines will be sent to video authors in due time.

Pre-Conference Workshop

A two-day course on photogrammetry will take place before the conference, on **October 22-23, 2022**. Details on the course and the application procedure can be found in the following link:
